compete at Henley, and would profit by their experience of this year. The Americans, he added, had been beaten by a good crew, but their defeat had been tempered by the hospitality the English knew so well how to dispense.

Chairman Jackson eulogized the Yale men as sportsmen and excellent companions. He expressed the hope that they would return to England and capture the cup.

Captain Treadway, in reply, said he did not wish to make any excuse for the Yale crew losing. The climate, he added, had nothing to do with their defeat, as it was as good as that to which they were accustomed. He ascribed whatever success they had had to "Bob" Cook's study of English rowing.

The dinner was a most enjoyable one, and the Americans took advantage of the occasion to express again their appreciation of the many courtesies they had received while in England, both from the public generally and their competitors in the regatta. They had nothing but praise for the sportsmanlike qualities displayed by all the English oarsmen with whom they have come in contact.
